

Parent Teacher Association (PTA)

PTA has an active role to play in the success of every institution. The education of a child not only hinges on the professional expertise of the teachers, but also equally on the personal involvement and contribution of the parent. While every parent is a member of the PTA, the members of the Parent Teacher Association are selected yearly from the members of the PTA. The Parent Teacher Association meets periodically and all important decisions pertinent to the functioning of the institution are taken with due consideration of the feedback received from the PTA.

PTA is a formal organization comprising parents, teachers and staff which facilitates parents' participation in a school. The PTA functioning since the beginning of the school serves as a forum for parents and teachers to engage in mutually beneficial discussion and work towards the welfare of the stakeholders of the school.

The aims and objectives of the association are to:

- Enable better understanding of the problems of the students, parents and teachers and to help find solutions.
- Be in close touch with parents regarding the pupil's progress, discipline, health and physical education, obedience to teachers, regularity in doing assignments etc.
- Arrange meeting, seminars and cultural programmes for improving the relationship among parents, pupils and teachers
- Raise funds for the specific purpose of pupils' welfare.

Parents find an important place in Heritage Vidhyalaya School. Apart from the regular interactions between the teachers and parents on students' achievement and progress, the school arranges for regular comprehensive Parent-School Programs to foster the involvement of parents in nurturing the development of their children.

Parents' involvement is useful in extending the learning experience of children beyond the classrooms, and creating fruitful experiences that are bound to enhance the performance of children at school.

Parents are invited for special events, programs, activities and important celebrations conducted in the school. These activities facilitate better interaction between parents and teachers, which in turn has a positive impact in enhancing the children's education.
